

ABDULSALAM ABDULRAHMAN GBOLAHAN

Data & Business Intelligence Analyst

Ilorin, Kwara State, Nigeria • +234 810 074 0405 • abdulsalamabdulrahmangbolahan@gmail.com

PROFESSIONAL SUMMARY

Data analyst with a Telecommunication Science background and hands-on experience across Excel, Power BI, Python, and MySQL. Skilled at turning messy, real-world datasets, from HR records to retail transactions and banking data, into predictive models, dashboards, and clear recommendations that support business decisions. Comfortable working independently or in cross-functional teams, with a growing portfolio of end-to-end analytics projects.

SKILLS

Analysis & Modeling: Excel (PivotTables, Solver, formulas), Python (pandas, scikit-learn), Logistic Regression, SQL (MySQL)

Visualization & Reporting: Power BI, Excel Dashboards, Stakeholder Reporting

Data Management: Data Cleaning, Star-Schema Design, SQL Databases, Transaction Control

PROJECTS

Retail Sales Data Warehouse

MySQL · Star Schema · Stored Procedures

- Designed a 5-table star-schema retail database (FactSales plus Date, Customer, Product, and Store dimensions) in MySQL.
- Answered 20+ business questions using joins, subqueries, and aggregations to analyze revenue by store/product/month, customer segmentation, and loyalty eligibility.
- Implemented transaction control (COMMIT, ROLLBACK, SAVEPOINT) and a stored procedure with exception handling for safe multi-table inserts.

Bank Customer Churn Analysis

Excel · Excel Dashboards

- Analyzed customer-level banking data to identify churn drivers, tenure, product holdings, balance, and complaint history, using PivotTables and segmentation.
- Built an interactive Excel dashboard flagging high-risk customer segments by churn rate and value, to support targeted retention efforts.

Hospital Patient Records Analysis

Excel · Excel Dashboards

- Cleaned and structured patient admission records, using formulas and PivotTables to track admission trends, length of stay, and department utilization.
- Built a dashboard summarizing patient volume by department and diagnosis category to support capacity and resource planning.

CRM Sales Opportunity Analysis

Excel · Power BI Dashboard

- Analyzed CRM pipeline data to track opportunities by stage, deal value, and sales rep performance.
- Built a Power BI dashboard visualizing pipeline velocity and stage-to-stage conversion rates to support sales forecasting.

Airline Loyalty Program Analysis

Excel · Power BI Dashboard

- Segmented airline loyalty members by tier, flight frequency, and points redemption behavior.
- Built a Power BI dashboard tracking member engagement and redemption trends to inform loyalty program strategy.

EXPERIENCE

HR Data Analyst — Analytical Haven

Excel (Solver) · Python (scikit-learn) · Dashboards

- Built a logistic regression model to flag employee attrition risk (AUC up to 0.857), fitting coefficients in Excel using Solver and validating results in Python (scikit-learn) for accuracy and reproducibility.
- Investigated 7 HR problem areas, including cost of turnover, pay equity, promotion bottlenecks, overtime burnout, and manager quality, using PivotTables, formulas, and statistical analysis to surface actionable insights from raw HR data.
- Designed and delivered 3 interactive dashboards (Payment, Attrition, Performance) that enabled HR stakeholders to monitor workforce risk indicators, compensation trends, and performance metrics in real time.
- Translated analytical findings into clear, business-focused recommendations on retention strategy, compensation fairness, and manager effectiveness, supporting data-driven decision-making for HR leadership.

Digital Literacy Volunteer (CDS) — DL4ALL

Maiduguri, Borno State, Nigeria | 2025 – 2026

- Collected, organized, and managed field outreach data using SQL databases.
- Coordinated community campaigns, demonstrating the ability to work effectively in team-based field operations.

EDUCATION

BSc, Telecommunication Science (Second Class Upper 2:1)

October 2019 - August 2024

University of Ilorin

CERTIFICATIONS

- Introduction to SQL — DataCamp (Sep 2025)
- Intermediate SQL — DataCamp (Oct 2025)
- Data Analytics Essentials — Cisco Networking Academy (Aug 2025)
